FINAL #CREW MEETING IN VIENNA: IT'S NOT THE END, IT'S JUST THE BEGINNING

BY NGO VERSLI MAMA

The first Erasmus+ project #CREW under the coordination of Lithuanian NGO Versli mama reached its final stage, with the 3rd transnational project meeting taking place in the picturesque and inspiring Austrian capital, Vienna. Hosts from the Austrian Association of Inclusive Society, AIS, welcomed the biggest ever crew of 13 representatives from Lithuania, Greece, Cyprus, Italy, and Spain, let alone AIS members themselves.

More than happy about transnational cooperation, beyond expectations, well-managed project, partner feedback messages read. Partnership unanimously agreed on the successful cooperation despite COVID-19 challenges, including but not limited to traveling as well as training face-to-face restrictions.

Highly intense brainstorming went on during the first meeting day, as the partnership prepared its strategy for the final report. Administrative and managerial tasks along with the impact evaluation on the local, regional, national, and international levels were among the hottest topics discussed. 'Many heads are better than one,' Skaidre Vainikauskaite-Tomaseviciene cited a Lithuanian proverb, encouraging crew members to share their expertise for a better result.

EDUCONF ‘I AM AN ENTREPRENEURIAL MOM’ BOOSTS FEMALE CREATIVITY AND RESILIENCE THROUGH DIVERGENT THINKING

BY NGO VERSLI MAMA

“Don’t be afraid to change Your professional path, because our ultimate goal is to feel happy with our choices”, dr. Janina Radvile, a coach and author of the motivational book ‘It is never too late to live’ encouraged, presenting on CREW Training Course on Career Management Skills she was the developer behind.

“Divergent thinking is about imagination, i. e. the ability to think about all of the possibilities. Meanwhile, convergent thinking is about discernment and choice-making, i. e. from all of the possibilities, which might be the best choice?”, she said, explaining that both thinking patterns happen in 2 different parts of the brain, with the divergent part of the brain firing with numerous ideas, and the convergent part filtering and discarding all the “dumb” ones before they are even fully thought through or expressed.

THE #CREW PROJECT RESULTS WERE INTRODUCED IN NICOSIA, CYPRUS

BY ENOROS CONSULTING LTD

Enoros Consulting Ltd organized the Multiplier Event for the CREW project, on 7th of July, in Nicosia, Cyprus. Over 35 stakeholders from educational centers, Nonprofit associations, Public universities, Consulting and other private organizations attended to the event. During the event the main results of the project were introduced.
